## **RECORDER**

Meeting Minutes are the formal written notes from a meeting. Minutes are important because they capture discussions and decisions in writing, and minutes usually are distributed to attendees. A successful Minute Taker must be able to listen carefully, document clearly and understand the discussions, decisions and action items at the meeting.

The most important skill of a successful Minute Taker is excellent listening ability. When taking Meeting Minutes, sit centrally to all attendees so you can hear what is being said. Listen carefully to all speakers in order to attribute comments to the appropriate attendees. Pay close attention so you do not miss any parts of the discussion.

Successful meeting Minute Takers document most of what happens at the meeting. Your personal notes may contain more information than is necessary for the formal meeting minutes. It's better to over-document than under-document. When putting together the Meeting Minutes for distribution, you can edit out or choose not to include anything that is irrelevant or duplicated. Document all important points, dates, action items and decisions that occur in the meeting.

The Meeting Minutes should include the meeting date, time, location, and next scheduled meeting date, time and location. They should also include attendees, and those who sent regrets. Notes may also include sections for discussions, action items and decisions. Decisions should be short and concise, with attribution to the decision makers. Action items should include the task to be completed, who is responsible, and due dates.

Always seek confirmation of statements, ideas, decisions and action items if you are unsure of your notes or of what you've heard. Rather than guess or document incorrect information, ask for clarification during the meeting or after. Ask speakers for clarification of statements to ensure you are capturing exactly what was said.

The following are the two main elements of putting together successful Minutes: taking rough notes that accurately reflect the decisions and discussion that took place during the meeting; and copying and distributing the minutes to all Board members. The Minutes should be recorded as soon as possible after the meeting, while everything is still fresh in your mind.

## ARCHIVIST

- The archivist is the keeper of materials that are relevant and kept for historical purposes.
- Materials kept include the following: minutes of both general and annual general meetings, pictures taken at various social events, newsletters, past and current copies of the bylaws, memorandum of understanding, job descriptions, copies of the older college publications (ie: Humber Happenings, staff directories etc.)
- Updates the photos on the HCRA bulletin board located in the staff lounge. The photos removed from the bulletin board are filed in the archives. There are also HCRA bulletin boards at the Lakeshore Campus.
- In most cases these materials are filed in binders and arranged by years.
- All materials are stored in the upright filing cabinet in the Humber Retirees Office D154
- To access this room you must call Humber Security who will come and unlock the door for you. Number: **416-675-8500**
- The keys to access are filing cabinet are hanging on a magnetic hook on the side of the fridge facing the wall.

## **BYLAWS**

The Bylaw Committee is an ad hoc committee of the HCRA Board, with its membership appointed by the Board. The committee's function is to provide information to the Board regarding governance issues. Its mandate is to specifically complete the following tasks:

- 1) Update and/or create bylaws as directed by the Board
- 2) To review existing bylaw matters to ensure that the Board's bylaws and governance processes remain relevant.
- 3) Amendments to the bylaws will be presented by the Bylaw Committee to the membership at the AGM for approval

## CHRISTMAS FEST

### Instructions for Soliciting, Collecting and Organizing Gift Donations for Raffle Prizes and Set Up and Procedures for Raffle

#### One Month (or earlier) Prior to Christmas Fest

Request the assistance of someone at the North Campus (usually an Admin Assistant in the Office of the Senior VP or President) willing to collect donations on our behalf.

Send an e-mail request to all appropriate College departments/schools asking for their support (either for the first time or once again). Give a “hoping to have all donations by” date of about two weeks prior to luncheon. **See sample e-mails in binder or on thumb drive.**

- Check the College’s online staff directory to update last year’s e-mail list. (Also check to see if new departments have been added.)

Prizes may also be solicited from external businesses or individuals. (Past contributors have included local business such as Shoppers Drug Mart, Metro Stores, Fortinos, Mandarin Restaurant, Swiss Chalet and Rexall Pharma Plus). Most requests were made by Committee members who dropped in at these local businesses personally. In some cases, an official donation request letter on HCRA letterhead was presented. **See sample letter in binder or on thumb drive.**

As replies are received, record responses (yes/no, and description of items being donated if mentioned). **See sample tracking chart in binder or on thumb drive.**

#### Two Weeks Prior to Christmas Fest

Send a follow-up “reminder” e-mail to anyone who hasn’t yet responded. Check with contact to see what has been received. If the contact is able to keep a list of what’s been received and from whom, it’s very helpful. However, if it’s too inconvenient, just get a sense of how many donations have been dropped off. **See sample e-mail in binder or on thumb drive.**

#### One Week Prior to Christmas Fest

Arrange a time with contact to drop in and take an inventory of what’s been received and from whom. Send a follow-up “reminder” e-mail to anyone who had indicated they would be donating but who’s donation we have not received. **See sample e-mail in binder or on thumb drive.**

At some point, all gifts must be labelled and numbered. This could be done at this time or that week. If there’s space where the gifts are being collected, it could be done there

(with permission). However, now that the HCRA has dedicated office space at the North, it might be a good place to work as long as the gifts can be secured in lockable cabinets, etc. for the week. **See sample gift and number labels in binder or on thumb drive.**

Prepare and print sheets for the luncheon tables listing the raffle prizes (gifts) and acknowledging the donors. The raffle ticket prices are also noted. **See sample gift/prize and donor acknowledgement sheet in binder or on thumb drive.**

Prepare and print (on card stock) Raffle Ticket Prices signs for placement on the luncheon tables and around the venue. **See sample raffle ticket price sign in binder or on thumb drive.**

### Christmas Fest Day

Arrive at the College early to move all gifts to the Christmas Fest venue. Gifts are lined up on tables in numerical order.

Two boxes are required for the draw. One contains the raffle ticket numbers to be drawn and the other contains a prize number. When a raffle ticket number is drawn, the holder of that winning ticket draws the next winning raffle ticket and then draws a prize number. They then collect the prize with the corresponding number. It's helpful to have a few Committee members at the table to assist with prize collection.

## **MATURE LEARNING COMMITTEE**

## **WEBMASTER**

The webmaster maintains the Retirees' website with current information as provided by the board, e.g. photos, AGM minutes, current events, and Newsletters. To accommodate this new information web pages will be (re)written. Occasionally, some of the standard pages have to be revised with new information. Then, all of these web pages and files have to be uploaded to the Humber's computer using Dreamweaver's file transfer program. The Web site resides on one of Humber's servers: <http://retirees.humber.ca/>. The site contains protected and unprotected pages. The protected pages require a password that is changed every year at AGM time. The webmaster changes this password and submits the new password to the board. The tools used to maintain the site are Notepad++ and Dreamweaver.
